

Lifesize Step-by-Step

What is Lifesize?

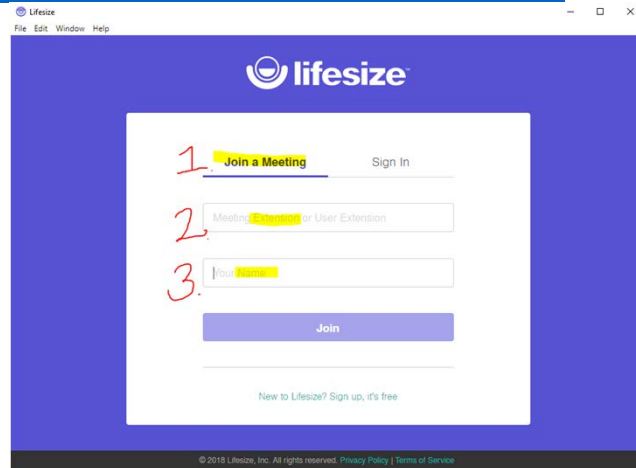

- **Lifesize is the software we use for video calls**
- **Lifesize can also be used for video conferencing**
- **We use it for Teletherapy Provider appointments and Groups**
- **Lifesize is available in app format on cellphones and tablets**
- **You can register a free account using your email and a chosen password**
- **If you do not have an email, you can call into an appointment as a guest**

Make a telehealth call without an account

<https://guest.lifesize.com>

<https://guest.lifesize.com>

1. Click Join Meeting
2. Enter your providers extension

Download LifeSize and make a call without an account

BROWSER

If you do not have a Lifesize account, you can **join a meeting as a guest using the Lifesize Link that was sent to you by text or email:**

1. Click on the link provided to you by the meeting organizer.
2. If prompted, select **Allow** to permit use of your camera and microphone.
3. Enter your name (required) and email (optional).
4. Click or tap Video & Audio settings to adjust video and audio settings.
5. Click or tap **Join Meeting**.

Log in and make a call without an account

Desktop App

If you do not have a Lifesize account, you can **join a meeting as a guest** :

1. Download the Lifesize desktop app to your computer.
2. Open the Lifesize app and click **I am a guest**.
3. Type your name, work email address, and the extension of the person, room system, or meeting you want to call.
4. Click **Next**.
5. Select your preferred video and audio options for calling.
6. Click **Join**.

Lifesize Downloads

Work smarter with award-winning video conferencing that goes everywhere you do.

Lifesize Desktop Apps

Enjoy the power of Lifesize on your desktop—the only service that offers a shared directory with click to call by name, instant and scheduled video calls, single and group calls (up to 50-way), single and group chats, and call recording.

Lifesize Mobile Apps

Do everything you need to do with our Lifesize mobile apps. The connection is the same—it's just the size of the screen that changes.

Join calls from your browser

All of the Lifesize features you've come to know and love are available right from your Google Chrome™ browser.

You can also join a meeting from Internet Explorer® 11 or Microsoft Edge, we'll detect if you have the desktop app installed and if not prompt you to download and install it on the fly.

If there are issues with the call quality: (I have found it to be best practice to check and change these settings after each time logging in)

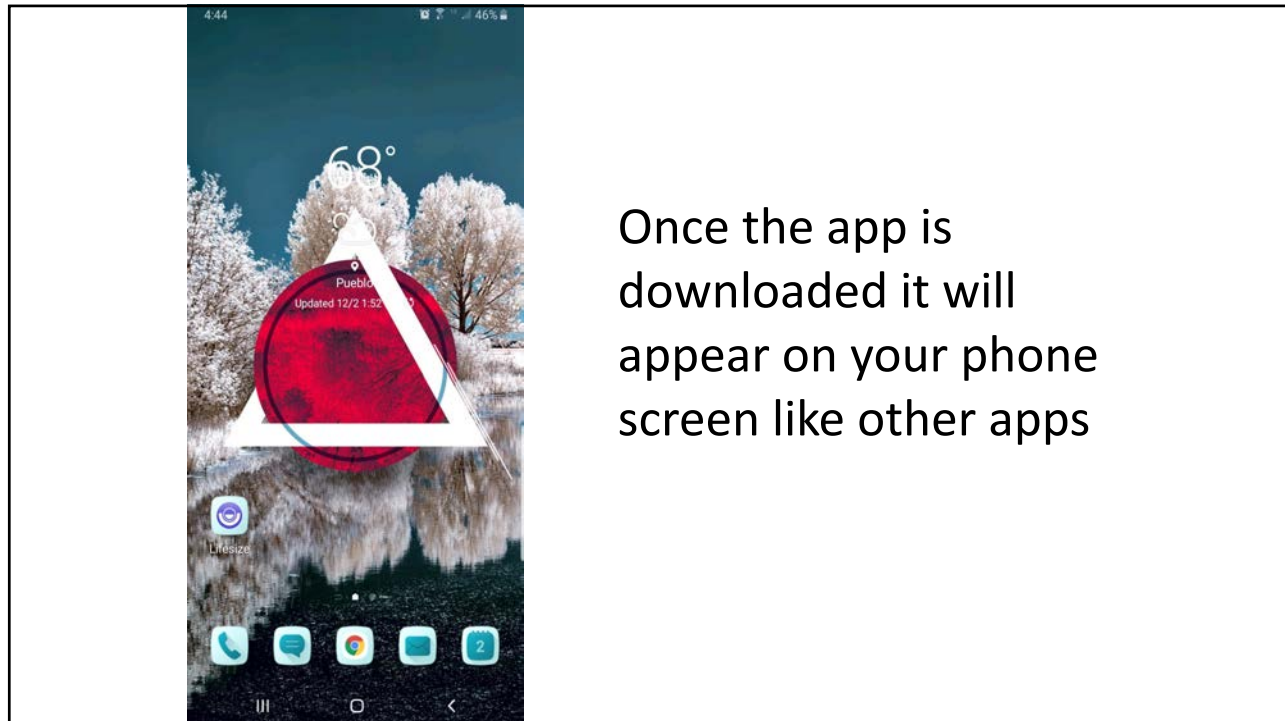

Click your profile icon in the upper right corner and select Settings.

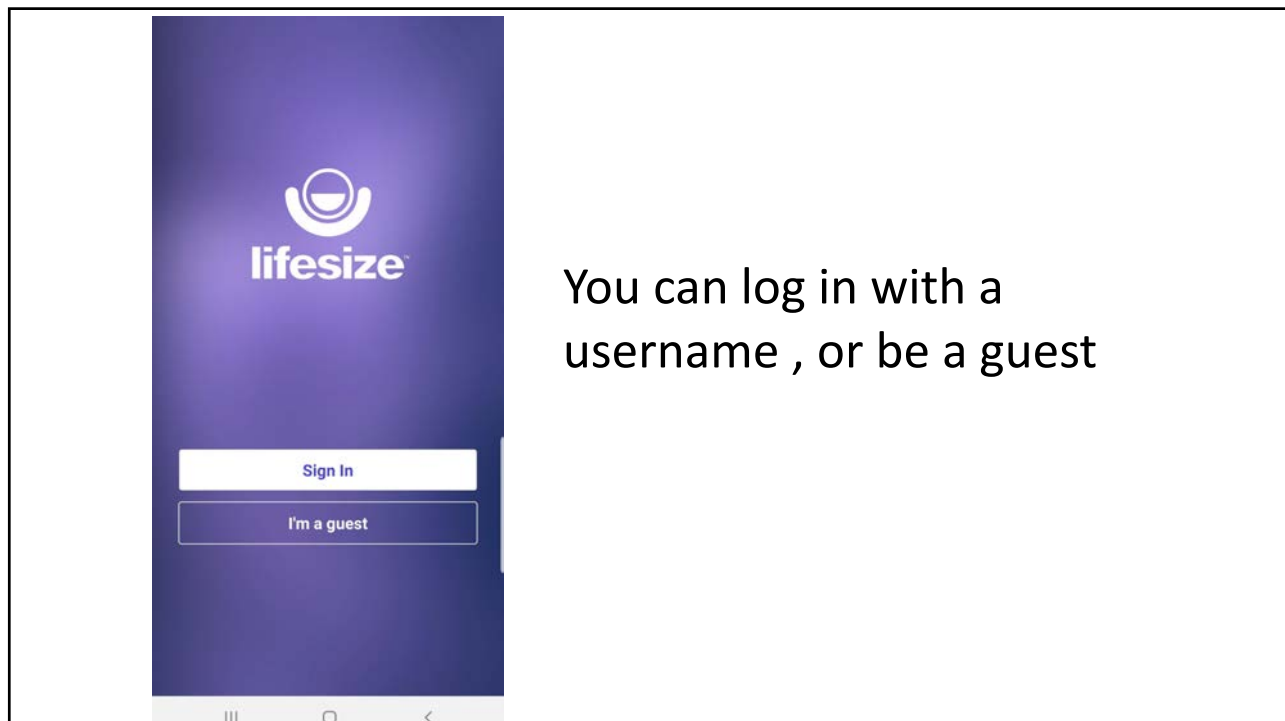

1. Set your camera preference, when set correctly, it will display a preview of the camera.
2. Set your microphone preference, when set correctly, you will see activity in the Microphone Level bar. Make sure the Check box is unchecked.
3. Set your Speaker settings, there is a "test my speakers" option. Click on it and listen for test sound.

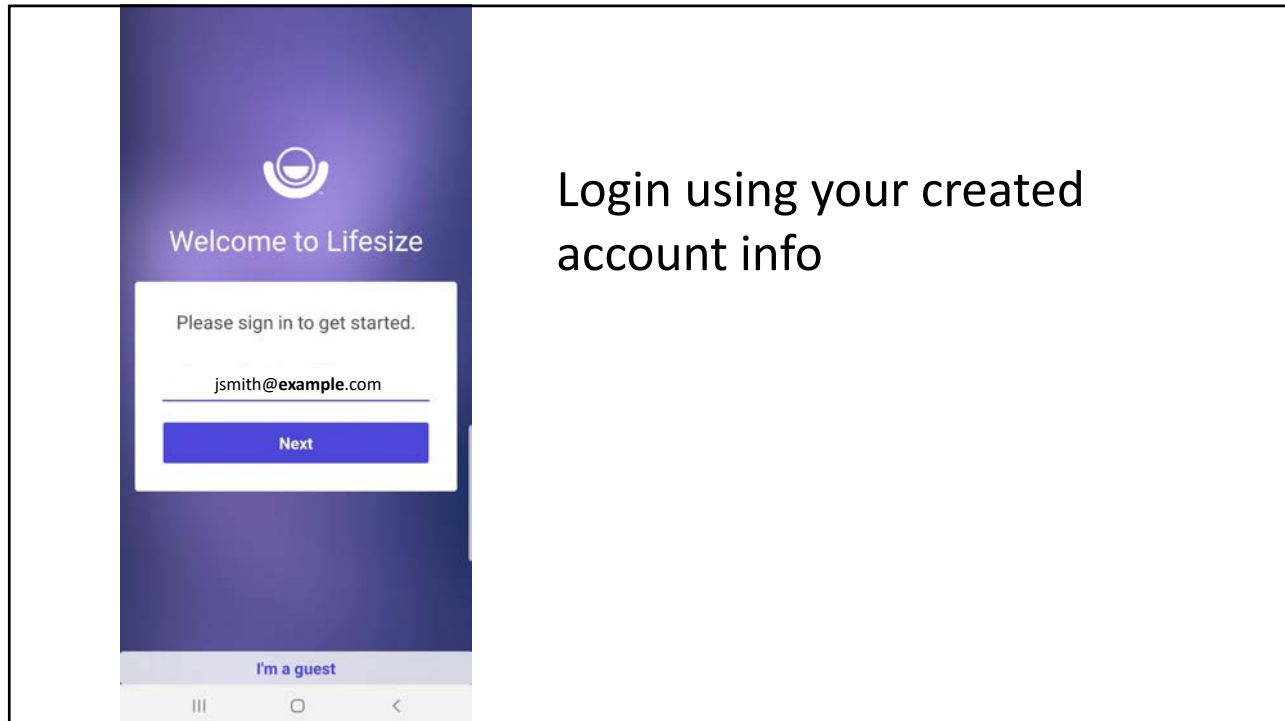

As always if there are any questions or issues, please submit a helpdesk ticket and we will resolve the issues as quickly as possible.

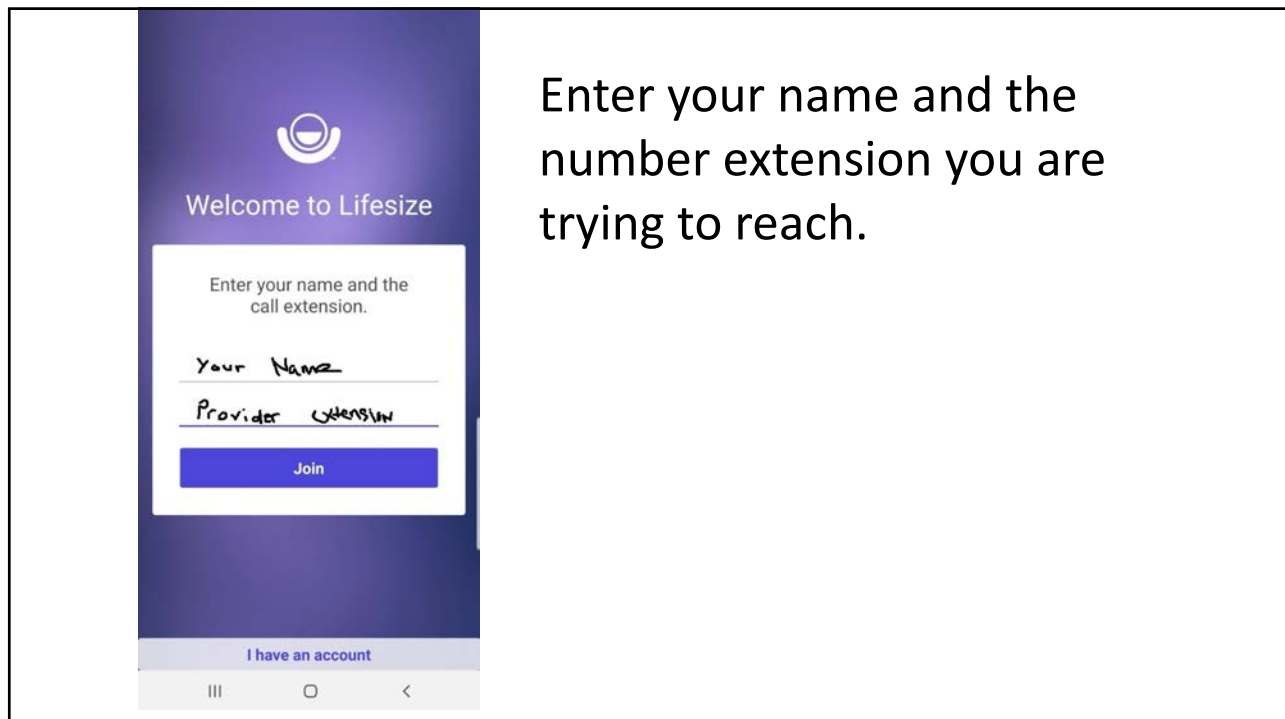

Once the app is downloaded it will appear on your phone screen like other apps

You can log in with a username , or be a guest

Login using your created account info

Enter your name and the number extension you are trying to reach.
